

OGC

Open Standards Code Sprint

#Day 1 – Kickoff

Joana Simoes

25/04/2025

Motivation

Current values of sensors measuring air quality. Source: <https://maps.sensor.community/#2/0.0/0.0>

Travel times across London. Source: <https://movement.uber.com/>

The lack of interoperability
can lead to less optimal solutions...

What is OGC?

Our Vision

Building the future of location with community and technology for the good of society.

Our Mission

Make location Information Findable, Accessible, Interoperable and Reusable (FAIR)

Our Approach

A proven collaborative and agile process combining consensus-based standards, innovation project and partnership building.

Some advantages of adopting Standards

- Server side: enable a wide range of clients to consume services (e.g.: no need to create custom clients).
- Client side: being able to consume services from a wide range of servers (e.g.: add support to more sources with minimal coding).
- More data access, less coding.

OGC Code Sprints

- Support the development of the standards.
- Support the development of implementations of the standards.
- Create awareness about the standards.

Open to All OGC standards

Standards Working Groups that have registered for this code sprint:

Joana Simoes (OGC), [✉](#), discord: @doublebyte.

Register

Registration is free for everyone. You may register [here](#). At the time of the event, only registered participants will have access to the relevant Discord channels. Registration will remain open throughout the code sprint.

Which OGC Standards working groups are going to participate?

- [OGC API - Joins](#)
- [OGC Training Data Markup Language for AI](#)
- [OGC API - Discrete Global Grid Systems](#)
- [OGC API - Records](#)

Collaborative activities

Thank You to our
hosts!

Local Nodes

Tutorials – Onboarding Day

Mentor Stream Onboarding

@Mentor Room: 10:10 - 10:30 UTC

Day #1 - Tuesday, the 25th of March 2025

2025-03-25		Day #1: Kick-Off	
	09:00 - 10:00	Welcome session	V: 🏛️ #Main Stage
	10:00 - 12:30	Practical Work	V: 👥 #Breakout Room
	12:30 - 13:30	Lunch	🍜
	13:30 - 18:00	Practical Work	V: 👥 #Breakout Room
	18:00 - 19:00	Early dinner	🍜
	19:00 - 20:00	Practical work	V: 👥 #Breakout Room
	20:00 - 21:00	Daily Brief Back	V: 🏛️ #Main Stage

Location on Discord

Day #2 - Wednesday, the 26th of March 2025

2025-03-26		Day #2	
	09:00 - 10:00	Practical work	V:👥 #Breakout Room
	10:00 - 10:30	Stand-up	V:🏛️ #Main Stage
	10:30 - 12:30	Practical work	V:👥 #Breakout Room
	12:30 - 13:30	Lunch	🍲
	13:30 - 18:00	Practical Work	V:👥 #Breakout Room
	18:00 - 19:00	Early dinner	🍲
	19:00 - 20:00	Practical work	V:👥 #Breakout Room
	20:00 - 21:00	Daily Brief Back	V:🏛️ #Main Stage

Day #3 - Thursday, the 27th of March 2025

2025-03-27		Day #3: Final Day	
	09:00 - 10:00	Practical work	V:👥 #Breakout Room
	10:00 - 10:30	Stand-up	V:🏛️ #Main Stage
	10:30 - 13:00	Practical work	V:👥 #Breakout Room
	13:00 - 14:00	Lunch	🍽️
	14:00 - 15:00	Practical Work	V:👥 #Breakout Room
	15:00 - 17:00	Demos & Wrap-up	V:📢 GotoMeet

Feel Free to add more items to the schedule

2022-07-14		Day #3: Final Day	
	05:00 - 07:00 EDT/ 11:00 - 13:00 CEST	Practical work	V:👥 #Breakout Room
	07:00 - 08:00 EDT/ 13:00 - 14:00 CEST	Stand-up & demos	V:🏛️ #Main Stage
	08:00 - 10:30 EDT/ 14:00 - 16:30 CEST	Practical work	V:👥 #Breakout Room
	10:30 - 11:00 EDT/ 16:30 - 17:00 CEST	Issues & concerns	V:🏛️ #Main Stage
	11:00 - 13:30 EDT/ 17:00 - 19:30 CEST	Practical work	V:👥 #Breakout Room
	12:00 - 13:00 EDT/ 18:00 - 19:00 CEST	Working group meeting	V:👥 #Breakout Room
	13:30 - 14:30 EDT/ 19:30 - 20:30 CEST	Demos	V:🔊 GotoMeet
	14:30 - 15:30 EDT/ 20:30 - 21:30 CEST	Wrap-up	V:🔊 GotoMeet

👉 Example from a previous schedule

👉 <https://github.com/opengeospatial/developer-events/wiki/March-2025-Open-Standards-Code-Sprint#schedule>

Missed a session?

- Slides will be uploaded to GitHub.
- There will be a video recording of the demo session.
- There will be audio recordings for all the other sessions at the #Main Stage.

Hello! I will be working on pytdml, but I am still not sure what the precise focus/issues will be.
Reactions: 1 thumbs up
- fmigneault** last week (Member)
Integration of <https://github.com/stac-extensions/mlm> (STAC Machine Learning Model (MLM) Extension to describe ML models, their training details, and inference runtime requirements) to see if we can leverage [pytdml](#) + [stac-model](#) packages into an end-2-end ML training pipeline deployable as an CWL Application Package for OGC API - Processes.
