Google Trend for “geospatial API”

The lack of interoperability
can lead to less optimal solutions...

What is OGC?

Our Vision

Building the future of location with community and technology for the good of society.

Our Mission

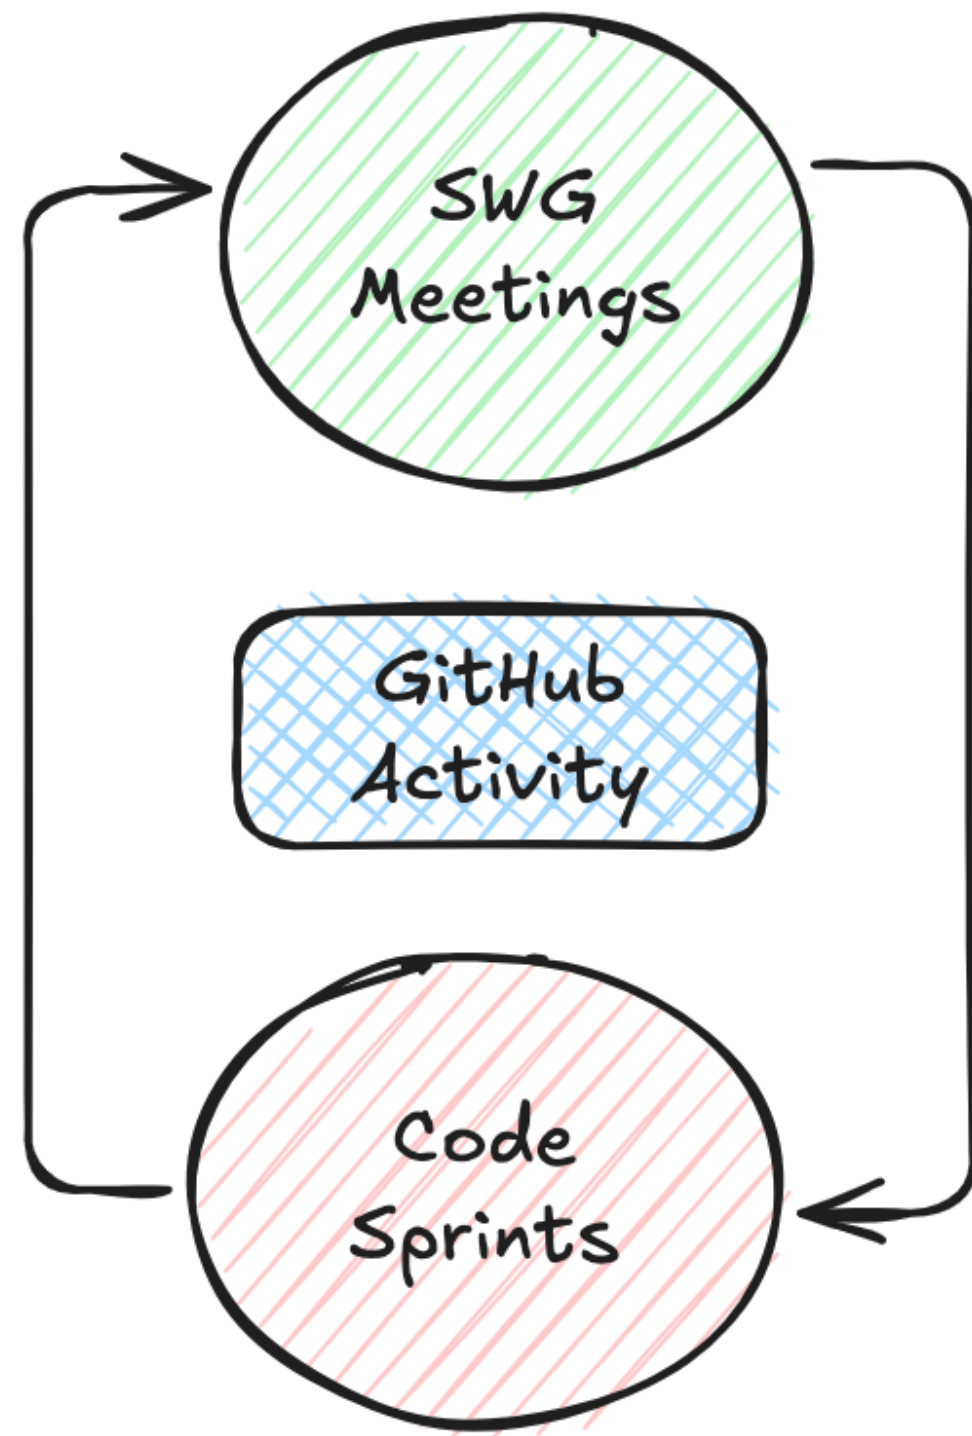

Make location Information Findable, Accessible, Interoperable and Reusable (FAIR)

Our Approach

A proven collaborative and agile process combining consensus-based standards, innovation project and partnership building.

OGC Code Sprints

- Support the development of the standards.
- Support the development of implementations of the standards.
- Create awareness about the standards.

Open to All OGC standards

Standards Working Groups that have registered for this code sprint:

Tutorials – Onboarding Day

Mentor Stream Onboarding

@Mentor Room: January 27, 10:10 - 10:30 GMT-7

Day #1 - Tuesday, the 27th of January 2026

Location on Discord

2026-01-27		Day #1: Kick-Off	
	09:00 - 10:00	Welcome session	V:🏛️ #Main Stage
	10:00 - 12:30	Practical Work	V:👥 #Breakout Room
	12:30 - 13:30	Lunch	🍲
	13:30 - 16:00	Practical work	V:👥 #Breakout Room
	16:00 - 17:00	Daily Brief Back	V:🏛️ #Main Stage

Day #2 - Wednesday, the 28st of January 2026

2026-01-28		Day #2	
	09:00 - 10:00	Practical work	V:👥 #Breakout Room
	10:00 - 10:30	Stand-up	V:🏛️ #Main Stage
	10:30 - 12:30	Practical work	V:👥 #Breakout Room
	12:30 - 13:30	Lunch	🍲
	13:30 - 16:00	Practical work	V:👥 #Breakout Room
	16:00 - 17:00	Daily Brief Back	V:🏛️ #Main Stage

Day #3 - Thursday, the 29th of January 2026

2026-01-29		Day #3: Final Day	
	09:00 - 10:00	Practical work	V:👥 #Breakout Room
	10:00 - 10:30	Stand-up	V:🏛️ #Main Stage
	10:30 - 12:30	Practical work	V:👥 #Breakout Room
	12:30 - 13:30	Lunch	🍲
	13:30 - 15:00	Practical work	V:👥 #Breakout Room
	15:00 - 17:00	Demos & Wrap-up	V:📢 teams

Feel Free to add more items to the schedule

2022-07-14		Day #3: Final Day	
	05:00 - 07:00 EDT/ 11:00 - 13:00 CEST	Practical work	V:👥 #Breakout Room
	07:00 - 08:00 EDT/ 13:00 - 14:00 CEST	Stand-up & demos	V:🏛️ #Main Stage
	08:00 - 10:30 EDT/ 14:00 - 16:30 CEST	Practical work	V:👥 #Breakout Room
	10:30 - 11:00 EDT/ 16:30 - 17:00 CEST	Issues & concerns	V:🏛️ #Main Stage
	11:00 - 13:30 EDT/ 17:00 - 19:30 CEST	Practical work	V:👥 #Breakout Room
	12:00 - 13:00 EDT/ 18:00 - 19:00 CEST	Working group meeting	V:👥 #Breakout Room
	13:30 - 14:30 EDT/ 19:30 - 20:30 CEST	Demos	V:🔊 GotoMeet
	14:30 - 15:30 EDT/ 20:30 - 21:30 CEST	Wrap-up	V:🔊 GotoMeet

Share what you will be working during the sprint

The screenshot shows a GitHub issue page for the repository 'opengeospatial/developer-events'. The issue title is 'What is everybody going to be working on, at the 2026 Joint OGC - ASF - OSGeo Sprint? #176'. The issue is open and has 12 issues in the list. The issue was opened by 'doublebyte1' on Dec 11, 2025. The issue description asks for comments on what users will be working on during the sprint. A comment by 'desruisseaux' 2 weeks ago discusses the OGC GeoAPI standard and the plan to prepare GeoAPI 3.1 for submission as a revision of the OGC standard, aligning with ISO 19115 and 19111 standards.

The [OGC GeoAPI](#) standard is a set of Java interfaces for using metadata and referencing services of different libraries in an implementation neutral way. GeoAPI is implemented by Apache SIS and has wrappers for PROJ, PROJ4J and GeoTools. The value of GeoAPI is illustrated by the [CRS JSON prototype](#), an experiment done by the OGC CRS Standard Working Group (SWG) for exploring the [encoding of CRS in JSON](#). GeoAPI 3.0 has made possible to write this prototype only once and make it run on 4 independent libraries (PROJ, PROJ4, Geotools and Apache SIS).

During the code sprint, we plan to continue the effort toward preparing GeoAPI 3.1 for submission as a revision of the OGC standard. This revision will align the GeoAPI interface with latest revisions of ISO 19115 and 19111 standard. This alignment is
