Joint Code Sprint 2026

January 27th, 2026

Pre-event Webinar

Joana Simoes (OGC), Martin Desruisseaux (ASF), Angelos Tzotsos (OSGeo), Tom Kralidis (OSGeo) and Gobe Hobona (OGC)

What is OSGeo?

- OSGeo is a not-for-profit software foundation
 - ✓ Provides projects financial, organizational and legal support
- Outreach and advocacy
 - ✓ Promoting global adoption of open source geospatial technology
 - ✓ Partnerships on open approach to standards, data and education.
- OSGeo is volunteer driven
 - ✓ Community / participatory
 - ✓ Passionate membership of individuals from around the world.

osgeo.org

Open Source Geospatial Foundation

- Working with our partners:
 - **Open Source:** a collaborative approach to software development.
 - **Open Data:** freely available information to use as you wish
 - **Open Standards:** avoid lock-in with interoperable software
 - **Open Education:** removing the barriers to learning and teaching
 - **Open Science:** share data and software for responsible research

Driven

“We are a Do-Ocracy”

OSGeo Status Overview

- Open, free membership
- Participants: sign up to mailing lists, take part in events, help out on the projects, send pull requests, report bugs etc.
 - 36600+ “unique-subscribers” on our mailing lists on June 1st 2023
- Members: self-declared on the wiki (volunteer driven)
 - 2100+ members on the web site
- Charter Members: elected yearly after nomination by other charter members. Get to vote on the board elections.
 - 548 elected charter members
- Board of Directors: Up to 9 directors, 2 year term.

OSGeo Projects

Projects: osgeo.org/projects

- OSGeo Projects (**24**)
 - Official projects having passed graduation through incubation committee
- Community Projects (**29**)
 - the barrier for community projects is lower than for official ones, but they also need confirmation by the OSGeo Incubation Committee

Sprint Goals for OSGeo Projects

- ✓ Test interoperability with other projects
- ✓ Release new software versions
- ✓ Fix open issues
- ✓ Develop new features
- ✓ Improve documentation, translations
- ✓ Develop prototype implementations of OGC standards
